

9th June 2025

Dear Year 11 Parents and Carers,

Re: "Cupcakes for Calculators" – Friday 20th June

As part of our Year 11 Leavers' celebrations on Friday 20th June, we are pleased to introduce a special initiative organised by the Mathematics Department – "Cupcakes for Calculators."

On this day, students planning not to continue their studies in a mathematical field are warmly invited to donate their scientific calculators in exchange for a cupcake. This initiative not only celebrates the end of their mathematics journey but also supports the learning of future students.

Due to increasing pressure on school budgets, the availability of classroom resources such as scientific calculators have become more limited. Donating unused calculators will significantly help us to ensure that all students have access to the tools they need for success in mathematics. Your support in this matter would be greatly appreciated.

A dedicated stall will be set up in the Maths Department during the Leavers' Assembly where students can exchange their calculators. The Mathematics Department is extremely grateful for any donations, and your generosity will have a lasting impact on students in the years to come.

Additionally, we kindly ask that any students who have borrowed or have been given any equipment from the Maths Department return it during this time. This includes items such as textbooks, geometry sets, or any other resources. Returning these materials will help us prepare for the next academic year and ensure that future students benefit from the same support.

Thank you for your continued support, and we look forward to celebrating with our Year 11 students.

Yours sincerely,

Miss Anley
KS4 Mathematics Coordinator
